CM-Host4 Software

Cardlock Vending is please to announce CM-Host4 software. Cardlock Vending continuously works on new and better products for our customers.

What does CM-Host4 add to the program?

1. it provides an interface for our new CM-TDL transaction data logger. The CM-TDL is an electronic journal replacing paper journal . Printers; which historically have been unsatisfactory.
2. it includes a field for the name associated with the connection address - making usage simpler for accounts with multiple sites to address for polling, etc.

CM-Host is licensed for the individual company with CMII fuel controllers for the their company. We have experienced unlicensed theft of the product by giving or selling the software to secondary companies. To prevent this practice our CM-Host now comes with a security code tied to the individual computer it is installed in.

CM-Host4 pricing is: **CM-HostCT current software - new or upgrade**

Order category	New CM Host4	Registered owner Upgrade to CM-Host4	Replacement <i>lost disk</i> CM Host4
Part Number	CM Host4	CM Host4U	CVI Host4R
Purchase Price	\$1,095	\$395	\$395
